- (a) Locomotor disability (a person’s inability to execute distinctive activities associated with movement of self and objects resulting from affliction of musculoskeletal or nervous system or both), including-
  - (i) “Leprosy cured person” means a person who has been cured of leprosy but is suffering from-
    - a) Loss of sensation in hands or feet as well as loss of sensation and paresis in the eye and eye-lid but with no manifest deformity;
    - b) Manifest deformity and paresis but having sufficient mobility in their hands and feet to enable them to engage in normal economic activity;
    - c) Extreme physical deformity as well as advanced age which prevents him/her from undertaking any gainful occupation, and the expression “leprosy cured” shall construed accordingly.
  - (ii) “Cerebral palsy” means a group of non-progressive neurological condition affecting body movements and muscle coordination, caused by damage to one or more specific areas of the brain, usually occurring before, during or shortly afterbirth.
  - (iii) “Dwarfism” means a medical or genetic condition resulting in an adult height of 4 feet 10 inches (147 centimeters) or less.
  - (iv) “Muscular dystrophy” means a group of hereditary genetic muscle disease that weakens the muscles that move the human body and persons with multiple dystrophy have incorrect and missing information in their genes, which prevents them from making the proteins they need for health of muscles. It is characterized by progressive skeletal muscle weakness, defects in muscle proteins, and the death of muscle cells and tissues.
  - (v) “Acid attack victim” means a person disfigured due to violent assaults by throwing acid or similar corrosive substance.
- (b) Visual impairment-
  - (i) “blindness” means a condition where a person has any of the following conditions, after best correction-
    - a) Total absence of sight, or
    - b) Visual acuity less than 3/60 or less than 10/200 (Snellen) in the better eye with best possible correction, or
    - c) Limitation of the field of vision subtending an angle of less than 10degree.

- (ii) “Low-vision” means a condition where a person has any of the following conditions, namely:-
      - a) Visual acuity not exceeding 6/18 or less than 20/60 up to 3/60 or up to 10/200 (Snellen) in the better eye with best possible corrections; or
      - b) Limitation of the field of vision subtending an angle of less than 40 degree up to 10 degree.
  - (c) Hearing impairment-
    - (i) “Deaf” means persons having 70 DB hearing loss in speech frequencies in both ears;
    - (ii) “Hard of hearing” means person having 60 DB hearing loss in speech frequencies in both ears,
  - (d) “Speech and language disability” means a permanent disability arising out of conditions such as laryngectomy or aphasia affecting one or more components of speech and language due to organic or neurological causes;
  - (e) Intellectual disability a condition characterized by significant limitation both in intellectual functioning (reasoning, learning, problem solving) and in a dative behavior which covers a range of every day, social and practical skills, including-

**Annexure -I****Foundation Programme**

[See clause (b) of sub-regulation (1) of regulation 7]

**BACKGROUND**

Homoeopathic medical education in India requires orientation of the new entrants to a basic philosophical orientation, a need to think in an integrated and holistic manner, an ability to function in a team at the bedside and a capacity to invest in a life-long learning pattern. Homoeopathy, though more than 225 years old, is relatively young as a scientific discipline and has attracted several negative community exposure due to a variety of reasons. In India, we are aware that the students who enter the portals of a homoeopathic college rarely do so out of their volition. It is often an exercise as the last choice or one which is adopted as a stepping stone to a 'medical' degree. Hence, the mind-set of the new entrants is rarely informed, positive, and self-affirming.

However, we know that like all medical disciplines, homoeopathy training includes a wide spectrum of domains that involves exposure to human interactions and interpersonal relationships in various settings including hospital, community, clinics etc. The training is intense and demands great commitment, resilience and lifelong learning. It is desirable to create a period of acclimatization and familiarization to the new environment. This would include an introduction to the course structure, learning methods, technology usage, and peer interactions which would facilitate their smooth transition from junior college to homoeopathic college.

This is planned to be achieved through a dedicated 10 days exclusive "Foundation Programme", at the beginning of the BHMS course to orient and sensitize the students to various identified areas.

**Goals and Objectives**

Broad goals of the Foundation Programme in Homoeopathy include:

1. Orienting the students to various aspects of homoeopathic system of medicine;
2. Creating in them the conscious awareness of the 'Mission' as defined by Master Hahnemann;
3. Equipping them with certain basic, but important skills required for going through this professional course and taking care of patients;
4. Enhancing their communication, language, computer and learning skills;
5. Providing an opportunity for peer and faculty interactions and introducing an orientation to various learning methodologies.

**Objectives**

(a) The Objectives of the Foundation Programme are to:

Orient the learners to:

- (i) The medical profession and the mission of a homoeopath in society
- (ii) The BHMS Course
- (iii) Vision and Mission of the institute
- (iv) Concept of holistic and positive health and ways to acquire and maintain it
- (v) History of Medicine and Homoeopathy and the status of Homoeopathy in the world
- (vi) Medical ethics, attitudes and professionalism
- (vii) Different health systems available in the country
- (viii) Health care system and its delivery
- (ix) National health priorities and policies
- (x) Principles of primary care (general and community-based care)
- (xi) Concept of mentorship programme

(b) Enable the learners to appreciate the need to enhance skills in:

- (i) Language
- (ii) Observation, documentation & understanding of basic medical technologies
- (iii) Interpersonal relationships and team behavior
- (iv) Communication across ages and cultures

- (v) Time management
- (vi) Stress management
- (vii) Use of information technology
- (c) Train the learners to provide:
  - (i) First-aid/ Emergency management
  - (ii) Basic life support
  - (iii) Universal precautions and vaccinations
  - (iv) Patient safety and biohazard safety
- (d) Impart Language and Computer skills
  - (i) Local language programme
  - (ii) English language programme
  - (iii) Computer skills

These may be arranged as per the needs of the particular batch and extra coaching may be continued after the Foundation programme

#### Content and Methodology

The programme will be run in professional session which must be interactive.

The major components of the Foundation Programme include:

##### 1) Orientation Program:

This includes orienting students to all the components mentioned below with special emphasis on the role of Homoeopathy and homoeopath in today's times.

##### 2) Skills Module (Basic):

This involves skill sessions such as Basic Life Support/ Emergency Management, First aid, Universal Precautions and Biomedical Waste and Safety Management that students need to be trained prior to entering the patient care areas.

##### 3) Field visits to Community and Primary Health Centre:

These visits provide orientation to the care delivery through community and primary health centres, and include interaction with health care workers, patients and their families.

##### 4) Professional development including Ethics:

This is an introduction to the concept of Professionalism and Ethics and is closely related to Hahnemann's emphasis on the conduct of a physician. This component will provide students with understanding that clinical competence, communication skills and sound ethical principles are the foundation of professionalism. It will also provide understanding of the consequences of unethical and unprofessional behavior, value of honesty, integrity and respect in all interactions. Professional attributes such as accountability, altruism, pursuit of excellence, empathy, compassion and humanism will be addressed. It should inculcate respect and sensitivity for gender, background, culture, regional and language diversities. It should also include respect towards the differently abled persons. It introduces the students to the basic concept of compassionate care and functioning as a part of a health care team. It sensitizes students to "learning" as a behavior and to the appropriate methods of learning.

##### 5) Enhancement of Language / Computer skills / Learning skills:

These are sessions to provide opportunity for the students from diverse background and language competence to undergo training for speaking and writing English, fluency in local language and basic computer skills. The students should be sensitized to various learning methodologies such as small group discussions, skills lab, simulations, documentation and concept of Self-Directed learning.

2. Institution / College established in Extreme Weather Condition may adjust the timing as required by maintaining the stipulated hour of teaching and however, the structure of academic calendar shall not be altered
3. Academic calendar may be modified according to directions of National Commission for Homoeopathy issued from time to time.

**Annexure-III**

**GUIDELINES FOR ATTENDANCE MAINTENANCE  
(THEORY/PRACTICAL/CLINICAL/NON-LECTURE HOURS)**

Institutes/colleges offering education in Homoeopathy are recommended to maintain online attendance system. However, in case physical registers are being maintained for recording attendance of various teaching/training activities, the following guidelines are to be followed:

- (1) Attendance is to be marked in cumulative numbering fashion:
  - (a) In case presence, it is to be marked as 1, 2, 3, 4, 5, 6.....soon;
  - (b) In case of absence, it must be marked as 'A';
  - (c) Example: P PPP A P P AA P P P.... may be marked as (1, 2, 3, 4, A, 5, 6, A, A, 7, 8,9...).
- (2) Avoid strictly marking 'P' for presence.
- (3) Separate register for theory and practical/clinical/non-lecture activities are to be maintained.
- (4) At the end of term or course or part of syllabus, the last number to be taken as total attendance.
- (5) The total attendance after student's signature is to be certified by respective Head of department (HOD) followed by approval by Principal.
- (6) In case of multiple terms, at the end of course all term attendance is to be summarised and percentage is to be calculated separately for theory and practical including clinical & non-lecture hours.
